Reframing Depiction: Classifiers/Depicting Verbs & Partitioning

PRESENTED BY

How many classifiers/depicting verbs are there? What is going on in people's minds when they use them? Will I ever learn how to use them!? Learn a different approach to classifiers using a cognitive linguistics approach. This workshop focuses on Whole Entity constructions and the Analogue Building Model to help interpreters better understand how we perceive objects in the physical world. *Presented in ASL*
